Height Adjustable ECG Cart

Easy to clean design

With its components, which are impact and scratch resistant powder coated, the CT500-2 is not only well designed for daily use in medical environments, it's easy to clean and disinfect. Time efficient infection control is important. Therefore, the ECG Cart has no superfluous edges and notches in which germs could hide from cleaning – improving safety for staff and patients.

Improved workflow for staff

An ECG Machine can easily cost a few thousand pounds, so you shouldn't cut corners on accessories, but invest in an absolutely robust, well thought-out and tip-proof Cart. The CT500-2 supports an improved workflow in the medical routine. With a simple press of the foot pedal, you can quickly and easily adjust the height, to provide maximum comfort for all staff members. This mobile cart provides easy transport for ECG machines and accessories as well. It is large enough to accommodate almost all ECG brands.

High quality with high durability

The premium ECG Cart CT500-2 contributes to higher safety with a tilt proof construction. With braked and rubbercoated castors, this ECG Cart ensures stability in every situation. Due to the high quality materials this premium accessory also has a high durability.
